Critical Decision Taken by Committee on Demands of British Department

London, July 30—A critical decision is understood to have been taken by the House of Commons today on the demand of the British Home Department for a contribution to the cost of the World War of \$500,000 annually for the next 100 years.

The report of a committee is to be published almost immediately. It will be found to report only the previous year's figure of a single final payment of \$1,000,000 without promise to the liability of the Jersey State.

A proposal that Jersey should pay \$500,000 in respect of war pensions already paid by the British government and be responsible in future for its own pensions administration and the maintenance of the military and naval forces on the island was advanced by a group of local legislators but the committee was also refused by the State Committee.

Middletown Will Get 1927 Convention of Ohio Labor Federation; Hold Election

Forty-Third Annual Conclave Closes at Akron with Re-Election of Officers, John P. Frey Again Named Head of State Organization

AKRON, July 30—Officers of the Ohio State Federation of Labor were re-elected at the final session of the 43rd annual convention here Thursday afternoon.

The convention will be held in Middletown next year.

John P. Frey, of Cincinnati, was again named president. Thomas J. Donnelly, of Columbus, secretary, and Leo Hall, of Toledo, again chosen first vice president.

The delegates completed their business a day and a half ahead of schedule. Sessions started Monday and were to last until Saturday. With the exception of John P. Morris who had been seventh vice president all were re-elected. They are:

William M. Morgan Newark; Arnold Hill, Cleveland; Francis Ogg, Hamilton; James F. Muller, Cleveland; Michael J. Larkin, Youngstown, and O. H. Chapman, Dayton.

It was voted to send the secretary-treasurer to the convention of the American Federation of Labor each year.

The convention formally went on record for modification of the Volstead law to permit the sale of 275 beer. This resolution declared the dry law has utterly failed to command respect and obedience of the general public. Without making any outlay on

development of candidates for governor to other state officers, delegates were told their labor records and attitude on proposed labor legislation through ballots. That labor will center its strength behind candidates for legislature who are friendly to labor was stressed. Locals were urged to inquire into the stand of such candidates.

As a result of their answers to the questionnaire sent out Governor Denney, Democrat, and Paul Brown, Republican, are satisfactory to union men. Meyer S. Cooper is "indirectly satisfactory"; Joseph Risher "partly so." Harry E. Day's rating was not announced. He did not answer the questionnaire.

The federation displayed an effort to change the workmen's compensation law, opposed passage of the state constitutional law, favored an anti-injunction statute, and will work for a measure to make the "yellow dog" contract illegal.

BENEFIT OF FOREIGN CREDIT DATA IS SHOWN

Secretary of Commerce Issues
Pamphlet Describing In-
formation Sources

Washington, July 20.—Secretary of Commerce Herbert Hoover has issued a pamphlet describing sources of credit information which have been made available to all American exporters. The pamphlet, entitled "Foreign Credit Information Sources," is the result of a long and careful study of the problem of obtaining credit information in foreign countries. It contains a list of sources of credit information, including banks, trade associations, and government agencies, and describes the methods of obtaining information from these sources. The pamphlet is available free of charge to all American exporters.

While the volume of trade in foreign countries has increased in the last few years, the lack of information regarding credit conditions in these countries has been a serious obstacle to the expansion of American exports. The Secretary of Commerce has therefore taken steps to make available to American exporters a list of sources of credit information which have been made available to all American exporters. The pamphlet, entitled "Foreign Credit Information Sources," is the result of a long and careful study of the problem of obtaining credit information in foreign countries. It contains a list of sources of credit information, including banks, trade associations, and government agencies, and describes the methods of obtaining information from these sources. FOR the first time in an automobile of economical pro-
duction, these Studebaker Custom Sedans duplicate the
master creations of custom design!

Swung low in the body—close-hauled in the coachwork—
fleet and flowing in their lines—resplendent with the
lacquered loveliness of duotone color schemes—and replete
with every detail of correct custom treatment, from broad-
lace trim, Butler finish hardware and Chase Mohair in-
teriors to the silvered figure of Atalanta poised on the
radiator

These Custom Sedans combine the lines that appeal to a
woman with the stamina that appeals to a man—add cus-
tom refinements to the ruggedness of Studebaker perform-

ance—offer disc wheels and four wheel brakes—reaffirm
the inflexible standards of Studebaker quality—and invoke
anew the great Studebaker tradition of making good with the
public by continually making better in the plant!

They are the latest examples of the Studebaker policy of
progressive betterments. To the smoothness and power of
the quiet Studebaker L-Head motor is added the custom
symmetry of line and treatment that would be absolutely
impossible, at the Studebaker price, without Studebaker
One-Plant facilities

These Studebaker Custom Sedans are now on view at our
display rooms. You are invited to come in and see them

LORAIN OVEN HEAT REGULATOR

Whole Meals can be left in this oven to cook
or hours without watching. For perfect baking
results choose a DIRECT ACTION Gas Range
with Loran Self-Regulating Oven.

You can "make room" for a big baking or a large number of fruit jars in the "Elastic" Oven of the Direct Action Gas Range. Just raise the partition between the oven broiler, and the capacity of the oven is increased fifty percent.

The broiler is above the oven, near the eye- level, to save stooping. The burner, specially designed for broiling, gives an even spread of flame over the entire broiling rack.

THREE THOUSAND MEN AT WORK JOINING RAILS

Must Construct 16 Tunnels

15 Miles

San Antonio, Tex., July 2.—Three thousand men are working on the grand canyon section that will bring the rails of the Southern Railway and the Santa Fe to the steel bridge spanning the San Juan river. Late this year a railroad will run from the city of San Antonio to the mouth of the river and across the canyon.

Construction of the bridge and the final effects of the bridge construction are being completed. The bridge will be a steel truss bridge and will be the longest bridge in the world.

San Antonio, Tex., July 2.—It may be said that a summer vacation is not far off for the Southern Railway men who are working on the bridge. But the men who are working on the bridge are not taking a vacation.

 I was a boy of ten when I first met Abilee. He was a big, burly fellow, with a face like a red apple and a voice like a rumbling cannon. He was the son of a farmer, and he had been out on his own since he was sixteen. He was a real tough guy, but he had a heart of gold. I was a shy, little fellow, and I was always looking for a friend. I had heard that Abilee was a real tough guy, but I had also heard that he was a real nice guy. I decided to go and see him. I found him in a field, sitting on a log and smoking a pipe. He looked up at me and said, "What's your name?" I told him, and he said, "Well, you're a pretty little fellow. I like you. I'll be your friend." I was so happy that I almost cried. I had found a friend. I had found a pardner.
